

About Peregrine Enforcement

Peregrine Enforcement was founded in Omaha, Nebraska, by Ben and John—two professionals with decades of combined experience in public safety and customer service. Ben brings 23 years of experience in emergency medical services, several years in security, and a strong background in customer service. John contributes extensive experience in law enforcement, EMS, security, and customer service, creating a leadership team deeply rooted in professionalism and community care.

Built on integrity, reliability, and respect, Peregrine Enforcement was established to raise the standard of private security and public safety services across the region. The company provides dependable security, patrol, and roadside assistance services, ensuring safety and peace of mind for clients and communities alike.

From contracted security operations to community outreach programs like the annual Thanksgiving turkey drive, Peregrine Enforcement continues to grow while staying true to its mission—protecting people, property, and the communities it proudly serves.
